

Course Leader : **Rodney Rayner**

Rodney has over 50 years of Dorper experience,

For the past fifteen years Rodney has done an average of 38 inspections per year. That does not include the courses, judging at shows, overseas inspections

And "helping out"!!! Rodney is a very popular course instructor due to his excellent ability to work with people.

He is the one inspector who you can contact any time and he will make a plan to help. He has an unequalled passion for the Dorper and if ever anybody should have the title of "Mr Dorper" it is Rodney Rayner. He is the oldest in years of the inspectors and does more work than anybody else!

Rodney became inspector in 1965

In 1985 he was appointed as Liaison Officer for the Dorpers. A job at which he excelled and through his doing the membership numbers shot up. He traveled Africa to promote the Dorpers. Unfortunately this post was ended in 1989.

Rodney was also a founder member of the Eastern Province Club and for many years chairman and committee member.

He also played a big role in the establishment of the Dorper Veldram project in the Eastern Cape as he is a great supporter of Performance testing.

Rodney is well loved and respected by the Dorper family in South Africa and Australia.
