Notice of Stock Dispersal

One of Australia's Oldest Dorper Studs

The breeding stock from our stud is available for purchase since we are in process of retiring.

We will sell all the ewes and the best of the rams to a successful tender bid.

Interested parties are invited to contact us in order to arrange for inspection of the stock.

It is estimated that we will offer approximately 200 ewes and 5 rams.

Bridgetown Dorper Stud was established in 1997; one of the original founding members of the Dorper Sheep Society of Australia Inc.

The stock on offer reflects the efforts made over a 20 year period to develop a flock of quality Dorper Sheep, the emphasis on conformation and hardiness coupled with fertility.
